

To view the map layers:

- Center the mouse pointer on the map for the area you would like to view.
- Roll the mouse wheel forward until you can see the desired layer
 - You can also roll the mouse wheel backwards if you would like to zoom out
- It may take some time for the layers to show up on the map
- You may use the mouse to click and drag the map in any direction you choose.
- You can click specific features to view more information

To view the map legend:

- Select the “Legend” button on the top left side of the map

To change the symbols:

- Click the “Content” button in the upper left corner of the screen
- Click the drop down button next to the layer you would like to change and select “Change Symbols”
- Use the drop down button next to “Colors” and choose your desired colors
- Click the green “Apply” button and then the “Done changing symbols” button.

To change the background:

- Click “Basemap” in the top left corner of the screen
- Select the type of map that you would like to see and wait for the background to change
